Response to Amendment

This Office Action is in response to a communication made on November 1, 2004.

The Terminal Disclaimer was received on November 1, 2004.

Claims 1-2, 4-7, and 9-11 are pending in this application.

Claims 1-2, 4-7, and 9-11 are allowable over the prior art on record.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is that the examiner has found that the prior art of record does not teach or suggest or render obvious a method and an apparatus for scheduling access to storage devices on a network for a plurality of hosts using detailed state information of those storage devices. More specifically, the prior art does not disclose or teach a storage area network, containing switching fabric that allows communication between a plurality of storage devices, a microprocessor that schedules access to those storage devices based on host requests, and scheduling data being transmitted from the storage devices to the microprocessor according to a priority, that scheduling data including the radial location of the head relative to the disk within each storage device. These differences are more clearly defined in the applicant's remarks filed on November 1, 2004 on pages 6 and 7 and are present in the specification and independent claims 1 and 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2155

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
